

WHAT IS THE FAMILY SUPPORT COUNCIL?

A support council made up of **local families** is a key part in advising Horizons on how to use funds allotted to us by the State Legislature through Developmental Disabilities Services. It's critical that the **voice of those we serve** is central in making decisions about how to best do just that...serve!

Interested in serving on the council? It's open to all families who have a member with a developmental disability or delay residing at home and there is no income restriction. Send an email to:
